Hi Anne-

For some reason when I log in to sharepoint I'm not seeing any of the files. I can login without any issue, but then I don't see any files. I had previously been able to see the outreach list that was up there, but now I'm not seeing that or the calendar. Any thoughts?

Thanks,

Susy

Hello – just so you have a record of this too. I know Fred had a hard time originally accessing this, but he is all set now. Thanks, Anne

Hello Doug: Susy asked that I share this platform that I have set up for our two agencies to share documents. Please let me know if you have any feedback or questions. Thanks, Anne
